TITLE VII—PHYSICAL EDUCATION FOR PROGRESS ACT

SEC. 701. PHYSICAL EDUCATION FOR PROGRESS. Title X of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8001 et seq.) is amended by adding at the end the following:

“PART L—PHYSICAL EDUCATION FOR PROGRESS

“SEC. 10999A. SHORT TITLE.

“This part may be cited as the ‘Physical Education for Progress Act’.

“SEC. 10999B. PURPOSE.

“The purpose of this part is to award grants and contracts to local educational agencies to enable the local educational agencies to initiate, expand and improve physical education programs for all kindergarten through 12th grade students.

“SEC. 10999C. FINDINGS.

“Congress makes the following findings:

“(1) Physical education is essential to the development of growing children.

“(2) Physical education helps improve the overall health of children by improving their cardiovascular endurance, muscular strength and power, and flexibility, and by enhancing weight regulation, bone development, posture, skillful moving, active lifestyle habits, and constructive use of leisure time.

“(3) Physical education helps improve the self esteem, interpersonal relationships, responsible behavior, and independence of children.

“(4) Children who participate in high quality daily physical education programs tend to be more healthy and physically fit.

“(5) The percentage of young people who are overweight has more than doubled in the 30 years preceding 1999.

“(6) Low levels of activity contribute to the high prevalence of obesity among children in the United States.

“(7) Obesity related diseases cost the United States economy more than \$100,000,000,000 every year.

“(8) Inactivity and poor diet cause at least 300,000 deaths a year in the United States.

“(9) Physically fit adults have significantly reduced risk factors for heart attacks and stroke.

“(10) Children are not as active as they should be and fewer than one in four children get 20 minutes of vigorous activity every day of the week.

“(11) The Surgeon General’s 1996 Report on Physical Activity and Health, and the Centers for Disease Control and Prevention, recommend daily physical education for all students in kindergarten through grade 12.

“(12) Twelve years after Congress passed House Concurrent Resolution 97, 100th Congress, agreed to December 11, 1987, encouraging State and local governments and local educational agencies to provide high quality daily physical education programs for all children in kindergarten through grade 12, little progress has been made.

“(13) Every student in our Nation’s schools, from kindergarten through grade 12, should have the opportunity to participate in quality physical education. It is the unique role of quality physical education programs to develop the health-related fitness, physical competence, and cognitive understanding about physical activity for all students so that the students can adopt healthy and physically active lifestyles.

“SEC. 10999D. PROGRAM AUTHORIZED.

“The Secretary is authorized to award grants to, and enter into contracts with, local educational agencies to pay the Federal share of the costs of initiating, expanding, and improving physical education programs for kindergarten through grade 12 students by—

“(1) providing equipment and support to enable students to actively participate in physical education activities; and

“(2) providing funds for staff and teacher training and education.

“SEC. 10999E. APPLICATIONS; PROGRAM ELEMENTS.

“(a) APPLICATIONS.—Each local educational agency desiring a grant or contract under this part shall submit to the Secretary an application that contains a plan to initiate, expand, or improve physical education programs in the schools served by the agency in order to make progress toward meeting State standards for physical education.

“(b) PROGRAM ELEMENTS.—A physical education program described in any application submitted under subsection (a) may provide—

“(1) fitness education and assessment to help children understand, improve, or maintain their physical well-being;

“(2) instruction in a variety of motor skills and physical activities designed to enhance the physical, mental, and social or emotional development of every child;

“(3) development of cognitive concepts about motor skill and physical fitness that support a lifelong healthy lifestyle;

“(4) opportunities to develop positive social and cooperative skills through physical activity participation;

“(5) instruction in healthy eating habits and good nutrition; and

“(6) teachers of physical education the opportunity for professional development to stay abreast of the latest research, issues, and trends in the field of physical education.

“(c) SPECIAL RULE.—For the purpose of this part, extra-curricular activities such as team sports and Reserve Officers' Training Corps (ROTC) program activities shall not be considered as part of the curriculum of a physical education program assisted under this part.

“SEC. 10999F. PROPORTIONALITY.

“The Secretary shall ensure that grants awarded and contracts entered into under this part shall be equitably distributed between local educational agencies serving urban and rural areas, and between local educational agencies serving large and small numbers of students.

“SEC. 10999G. PRIVATE SCHOOL STUDENTS AND HOME-SCHOOLED STUDENTS.

“An application for funds under this part may provide for the participation, in the activities funded under this part, of—

“(1) home-schooled children, and their parents and teachers; or

“(2) children enrolled in private nonprofit elementary schools or secondary schools, and their parents and teachers.

“SEC. 10999H. REPORT REQUIRED FOR CONTINUED FUNDING.

“As a condition to continue to receive grant or contract funding after the first year of a multiyear grant or contract under this part, the administrator of the grant or contract for the local educational agency shall submit to the Secretary an annual report that describes the activities conducted during the preceding year and demonstrates that progress has been made toward meeting State standards for physical education.

“SEC. 10999I. REPORT TO CONGRESS.

“The Secretary shall submit a report to Congress not later than June 1, 2003, that describes the programs assisted under

PUBLIC LAW 106-554—APPENDIX A

114 STAT.

this part, documents the success of such programs in improving physical fitness, and makes such recommendations as the Secretary determines appropriate for the continuation and improvement of the programs assisted under this part.

“SEC. 10999J. ADMINISTRATIVE COSTS.

“Not more than 5 percent of the grant or contract funds made available to a local educational agency under this part for any fiscal year may be used for administrative costs.

“SEC. 10999K. FEDERAL SHARE; SUPPLEMENT NOT SUPPLANT.

“(a) FEDERAL SHARE.—The Federal share under this part may not exceed—

“(1) 90 percent of the total cost of a project for the first year for which the project receives assistance under this part; and

“(2) 75 percent of such cost for the second and each subsequent such year.

“(b) SUPPLEMENT NOT SUPPLANT.—Funds made available under this part shall be used to supplement and not supplant other Federal, State and local funds available for physical education activities.

“SEC. 10999L. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated \$30,000,000 for fiscal year 2001, \$70,000,000 for fiscal year 2002, and \$100,000,000 for each of the fiscal years 2003 through 2005, to carry out this part. Such funds shall remain available until expended.”.

TITLE VIII—EARLY LEARNING OPPORTUNITIES

SEC. 801. SHORT TITLE; FINDINGS.

(a) SHORT TITLE.—This title may be cited as the “Early Learning Opportunities Act”.

(b) FINDINGS.—Congress finds that—

(1) medical research demonstrates that adequate stimulation of a young child’s brain between birth and age 5 is critical to the physical development of the young child’s brain;

(2) parents are the most significant and effective teachers of their children, and they alone are responsible for choosing the best early learning opportunities for their child;

(3) parent education and parent involvement are critical to the success of any early learning program or activity;

(4) the more intensively parents are involved in their child’s early learning, the greater the cognitive and noncognitive benefits to their children;

(5) many parents have difficulty finding the information and support the parents seek to help their children grow to their full potential;

(6) each day approximately 13,000,000 young children, including 6,000,000 infants or toddlers, spend some or all of their day being cared for by someone other than their parents;

(7) quality early learning programs, including those designed to promote effective parenting, can increase the literacy rate, the secondary school graduation rate, the employment rate, and the college enrollment rate for children who have participated in voluntary early learning programs and activities;

(8) early childhood interventions can yield substantial advantages to participants in terms of emotional and cognitive development, education, economic well-being, and health, with the latter two advantages applying to the children's families as well;

(9) participation in quality early learning programs, including those designed to promote effective parenting, can decrease the future incidence of teenage pregnancy, welfare dependency, at-risk behaviors, and juvenile delinquency for children;

(10) several cost-benefit analysis studies indicate that for each \$1 invested in quality early learning programs, the Federal Government can save over \$5 by reducing the number of children and families who participate in Federal Government programs like special education and welfare;

(11) for children placed in the care of others during the workday, the low salaries paid to the child care staff, the lack of career progression for the staff, and the lack of child development specialists involved in early learning and child care programs, make it difficult to attract and retain the quality of staff necessary for a positive early learning experience;

(12) Federal Government support for early learning has primarily focused on out-of-home care programs like those established under the Head Start Act, the Child Care and Development Block Grant of 1990, and part C of the Individuals with Disabilities Education Act, and these programs—

(A) serve far fewer than half of all eligible children;

(B) are not primarily designed to provide support for parents who care for their young children in the home; and

(C) lack a means of coordinating early learning opportunities in each community; and

(13) by helping communities increase, expand, and better coordinate early learning opportunities for children and their families, the productivity and creativity of future generations will be improved, and the Nation will be prepared for continued leadership in the 21st century.

SEC. 802. PURPOSES.

The purposes of this title are—

(1) to increase the availability of voluntary programs, services, and activities that support early childhood development, increase parent effectiveness, and promote the learning readiness of young children so that young children enter school ready to learn;

(2) to support parents, child care providers, and caregivers who want to incorporate early learning activities into the daily lives of young children;

(3) to remove barriers to the provision of an accessible system of early childhood learning programs in communities throughout the United States;

(4) to increase the availability and affordability of professional development activities and compensation for caregivers and child care providers; and

(5) to facilitate the development of community-based systems of collaborative service delivery models characterized by resource sharing, linkages between appropriate supports, and local planning for services.

SEC. 803. DEFINITIONS.

(3) A lease under this subsection—

(A) may be for such period as the Secretary determines is necessary to accomplish the goals of the Project; and

(2) The report shall include the cost of obtaining such data, the rationale underlying the decisions reached based on such data, and the relative advantages and disadvantages of using such data (including whether the effort involved in analyzing and integrating such data is commensurate with the benefits derived from their use). The report may include specific recommendations regarding the continued use of such data.

(g)(1) No later than May 1, 2001, the President's pay agent shall prepare and submit to the committees specified in subsection (f)(1) a report relating to the ongoing efforts of the Office of Personnel Management, the Office of Management and Budget, and the Bureau of Labor Statistics to revise the methodology currently being used by the Bureau of Labor Statistics in performing its surveys under section 5304 of title 5, United States Code.

(2) The report shall include a detailed accounting of any concerns the pay agent may have regarding the current methodology, the specific projects the pay agent has directed any of those agencies to undertake in order to address those concerns, and a time line for the anticipated completion of those projects and for implementation of the revised methodology.

(3) The report shall also include recommendations as to how those ongoing efforts might be expedited, including any additional resources which, in the opinion of the pay agent, are needed in order to expedite completion of the activities described in the preceding provisions of this subsection, and the reasons why those additional resources are needed.

Such a contract shall provide that the extension of such term shall be contingent upon the future availability of appropriated funds for the purpose of renewing expiring contracts for assistance payments, as provided in appropriations Acts, and may obligate the owner to have such extensions of the underlying housing assistance payment contract accepted by the owner and the successors in interest of the owner.

“(H) RENT CALCULATION.—A housing assistance payment contract pursuant to this paragraph shall establish rents for each unit assisted in an amount that does not exceed 110 percent of the applicable fair market rental (or any exception payment standard approved by the Secretary pursuant to paragraph (1)(D)), except that if a contract covers a dwelling unit that has been allocated low-income housing tax credits pursuant to section 42 of the Internal Revenue Code of 1986 (26 U.S.C. 42) and is not located in a qualified census tract (as such term is defined in subsection (d) of such section 42), the rent for such unit may be established at any level that does not exceed the rent charged for comparable units in the building that also receive the low-income housing tax credit but do not have additional rental assistance. The rents established by housing assistance payment contracts pursuant to this paragraph may vary from the payment standards established by the public housing agency pursuant to paragraph (1)(B), but shall be subject to paragraph (10)(A).

Subject to its waiting list policies and selection preferences, a public housing agency may place on its waiting list a family referred by the owner or manager of a structure and may maintain a separate waiting list for assistance under this paragraph, but only if all families on the agency's waiting list for assistance under this subsection are permitted to place their names on the separate list.

“(K) VACATED UNITS.—Notwithstanding paragraph (9), a housing assistance payment contract pursuant to this paragraph may provide as follows:

“(i) PAYMENT FOR VACANT UNITS.—That the public housing agency may, in its discretion, continue to provide assistance under the contract, for a reasonable period not exceeding 60 days, for a dwelling unit that becomes vacant, but only: (I) if the vacancy was not the fault of the owner of the dwelling unit; and (II) the agency and the owner take every reasonable action to minimize the likelihood and extent of any such vacancy. Rental assistance may not be provided for a vacant unit after the expiration of such period.

“(ii) REDUCTION OF CONTRACT.—That, if despite reasonable efforts of the agency and the owner to fill a vacant unit, no eligible family has agreed to rent the unit within 120 days after the owner has notified the agency of the vacancy, the agency may reduce its housing assistance payments contract with the owner by the amount equivalent to the remaining months of subsidy attributable to the vacant unit. Amounts deobligated pursuant to such a contract provision shall be available to the agency to provide assistance under this subsection.

Eligible applicants for assistance under this subsection may enforce provisions authorized by this subparagraph.”.

SEC. 323. FORT IRWIN NATIONAL TRAINING CENTER EXPANSION.
(a) FINDINGS.—Congress makes the following findings:

(1) The National Training Center at Fort Irwin, California, is the only instrumented training area in the world suitable for live fire training of heavy brigade-sized military forces and thus provides the Army with essential training opportunities necessary to maintain and improve military readiness and promote national security.

(2) The National Training Center must be expanded to meet the critical need of the Army for additional training lands suitable for the maneuver of large numbers of military personnel and equipment, which is necessitated by advances

PUBLIC LAW 106-554—APPENDIX D

114 STAT.

in equipment, by doctrinal changes, and by Force XXI doctrinal experimentation requirements.

(3) The lands being considered for expansion of the National Training Center are home to the desert tortoise and other species that are protected under the Endangered Species Act of 1973, and the Secretary of Defense and the Secretary of the Interior, in developing a plan for expansion of the National Training Center, must provide for such expansion in a manner that complies with the Endangered Species Act of 1973, the National Environmental Policy Act of 1969, and other applicable laws.

(4) In order for the expansion of the National Training Center to be implemented on an expedited basis, the Secretaries should proceed without delay to define with specificity the key elements of the expansion plan, including obtaining early input regarding national security requirements, Endangered Species Act of 1973 compliance and mitigation, and National Environmental Policy Act of 1969 compliance.

(b) PURPOSE.—The purpose of this section is to expedite the expansion of the National Training Center at Fort Irwin, California, in a manner that is fully compliant with environmental laws.

(c) PREPARATION OF PROPOSED EXPANSION PLAN.—

(1) PREPARATION REQUIRED.—The Secretary of the Army and the Secretary of the Interior (in this section referred to as the “Secretaries”) shall jointly prepare a proposed plan for the expansion of the National Training Center at Fort Irwin, California.

(2) SUBMISSION AND AVAILABILITY.—The plan required by paragraph (1) (in this section referred to as the “proposed expansion plan”) shall be completed not later than 120 days after the date of the enactment of this Act. When completed, the Secretaries shall make the proposed expansion plan available to the public and shall publish in the Federal Register a “notice of availability” concerning the proposed expansion plan.

(d) KEY ELEMENTS OF PROPOSED EXPANSION PLAN.—

(1) JOINT REPORT.—Not later than 45 days after the date of the enactment of this Act, the Secretaries shall submit to Congress a joint report that identifies the key elements of the proposed expansion plan.

(2) LANDS WITHDRAWAL AND RESERVATION.—The proposed expansion plan shall include the withdrawal and reservation of an appropriate amount of public lands for—

(A) the conduct of combined arms military training at the National Training Center;

(B) the development and testing of military equipment at the National Training Center;

(C) other defense-related purposes; and

(D) conservation and research purposes.

(3) CONSERVATION MEASURES.—The proposed expansion plan shall also include a general description of conservation measures, anticipated to cost approximately \$75,000,000, that may be necessary and appropriate to protect and promote the conservation of the desert tortoise and other endangered or threatened species and their critical habitats in designated wildlife management areas in the West Mojave Desert. The conservation measures may include—

114 STAT.

PUBLIC LAW 106-554—APPENDIX D

(A) the establishment of one or more research natural areas, which may include lands both within and outside the National Training Center;

(B) the acquisition of private and State lands within the wildlife management areas in the West Mojave Desert;

(C) the construction of barriers, fences, and other structures that would promote the conservation of endangered or threatened species and their critical habitats;

(D) the funding of research studies; and

(E) other conservation measures.

(d) PRELIMINARY REVIEW OF EXPANSION PLAN.—

(1) REVIEW REQUIRED.—Not later than 90 days after the date of the enactment of this Act, the Director of the United States Fish and Wildlife Service shall submit to the Secretaries a preliminary review of the proposed expansion plan (as developed as of that date). In the preliminary review, the Director shall identify, with as much specificity as possible, an approach for implementing the proposed expansion plan consistent with the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(2) RELATION TO FORMAL REVIEW.—The preliminary review under paragraph (1) shall not constitute a formal consultation under section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1536), but shall be used to assist the Secretaries in more precisely defining the nature and scope of an expansion plan for the National Training Center that is likely to satisfy requirements of the Endangered Species Act of 1973 and to expedite the formal consultation process under section 7 of such Act.

(3) CONSIDERATION OF PRELIMINARY REVIEW.—In preparing the proposed expansion plan, the Secretaries shall take into account the content of the preliminary review by the Director of the United States Fish and Wildlife Service under paragraph (1).

(e) DRAFT LEGISLATION.—The Secretaries shall submit to Congress with the proposed expansion plan a draft of proposed legislation providing for the withdrawal and reservation of public lands for the expansion of the National Training Center. It is the sense of the Congress that the proposed legislation should contain a provision that, if enacted, would prohibit ground-disturbing military use of the land to be withdrawn and reserved by the legislation until the Secretaries have certified that there has been full compliance with the appropriate provisions of the legislation, the Endangered Species Act of 1973, the National Environmental Policy Act of 1969, and other applicable laws.

(f) CONSULTATION UNDER ENDANGERED SPECIES ACT OF 1973.—The Secretaries shall initiate the formal consultation required under section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1536) with respect to expansion of the National Training Center as soon as practicable and shall complete such consultation not later than 2 years after the date of the enactment of this Act.

(g) ENVIRONMENTAL REVIEW.—Not later than 6 months following completion of the formal consultation required under section 7 of the Endangered Species Act of 1973 with respect to expansion of the National Training Center, the Secretaries shall complete any analysis required under the National Environmental Policy Act of 1969 with respect to the proposed expansion of the National Training Center. The analysis shall be coordinated, to the extent

PUBLIC LAW 106-554—APPENDIX D

practicable and appropriate, with the review of the West Mojave Coordinated Management Plan that, as of the date of the enactment of this Act, is being undertaken by the Bureau of Land Management.

(h) FUNDING.—

(1) IMPLEMENTATION OF CONSERVATION MEASURES.—There are authorized to be appropriated \$75,000,000 to the Secretary of the Army for the implementation of conservation measures necessary for the final expansion plan for the National Training Center to comply with the Endangered Species Act of 1973.

(2) IMPLEMENTATION OF SECTION.—The amounts of \$2,500,000 for “Operation and Maintenance, Army” and \$2,500,000 for “Management of Lands and Resources, Bureau of Land Management” are hereby appropriated to the Secretary of the Army and the Secretary of the Interior, respectively, only to undertake and complete on an expedited basis the activities specified in this section.

SEC. 109. Appropriations and funds made available by or authority granted pursuant to this joint resolution may be used without regard to the time limitations for submission and approval of apportionments set forth in section 1513 of title 31, United States Code, but nothing herein shall be construed to waive any other provision of law governing the apportionment of funds.

SEC. 110. This joint resolution shall be implemented so that only the most limited funding action of that permitted in the joint resolution shall be taken in order to provide for continuation of projects and activities.

SEC. 111. Notwithstanding any other provision of this joint resolution, except section 106, for those programs that had high initial rates of operation or complete distribution of fiscal year 2000 appropriations at the beginning of that fiscal year because of distributions of funding to States, foreign countries, grantees or others, similar distributions of funds for fiscal year 2001 shall not be made and no grants shall be awarded for such programs funded by this resolution that would impinge on final funding prerogatives.

SEC. 112. SEC. 114. Notwithstanding any other provision of this joint resolution, except section 106, only the following activities funded with Federal Funds for the District of Columbia, may be continued under this joint resolution at a rate for operations not exceeding the current rate, multiplied by the ratio of the number of days covered by this joint resolution to 365: Resident Tuition Support, Corrections Trustee Operations, Court Services and Offender Supervision, District of Columbia Courts, and Defender Services in District of Columbia Courts.

SEC. 115. Activities authorized by sections 1309(a)(2), as amended by Public Law 104-208, and 1376(c) of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4001 et seq.), may continue through the date specified in section 106(c) of this joint resolution.

SEC. 116. Notwithstanding subsections (a)(2) and (h)(1)(B) of section 3011 of Public Law 106-31, activities authorized for fiscal year 2000 by such section may continue during the period covered by this joint resolution.

SEC. 117. “(iv) The discount schedules that reflect the reduction in quality of the agricultural commodity are established by the Secretary.

Development Act
of 2000.

TITLE III—BIOMASS RESEARCH AND DEVELOPMENT ACT OF 2000

7 USC 7624 note.

SEC. 301. SHORT TITLE.

This title may be cited as the “Biomass Research and Development Act of 2000”.

7 USC 7624 note.

SEC. 302. FINDINGS.

Congress finds that—

(1) conversion of biomass into biobased industrial products offers outstanding potential for benefit to the national interest through—

(A) improved strategic security and balance of payments;

(B) healthier rural economies;

(C) improved environmental quality;

(D) near-zero net greenhouse gas emissions;

(E) technology export; and

(F) sustainable resource supply;

(2) the key technical challenges to be overcome in order for biobased industrial products to be cost-competitive are finding new technology and reducing the cost of technology for converting biomass into desired biobased industrial products;

(3) biobased fuels, such as ethanol, have the clear potential to be sustainable, low cost, and high performance fuels that are compatible with both current and future transportation systems and provide near-zero net greenhouse gas emissions;

(4) biobased chemicals have the clear potential for environmentally benign product life cycles;

(5) biobased power can—

(A) provide environmental benefits;

(B) promote rural economic development; and

(C) diversify energy resource options;

(6) many biomass feedstocks suitable for industrial processing show the clear potential for sustainable production, in some

PUBLIC LAW 106-224—JUNE 20, 2000

cases resulting in improved soil fertility and carbon sequestration;

(7)(A) grain processing mills are biorefineries that produce a diversity of useful food, chemical, feed, and fuel products; and

(B) technologies that result in further diversification of the range of value-added biobased industrial products can meet a key need for the grain processing industry;

(8)(A) cellulosic feedstocks are attractive because of their low cost and widespread availability; and

(B) research resulting in cost-effective technology to overcome the recalcitrance of cellulosic biomass would allow biorefineries to produce fuels and bulk chemicals on a very large scale, with a commensurately large realization of the benefit described in paragraph (1);

(9) research into the fundamentals to understand important mechanisms of biomass conversion can be expected to accelerate the application and advancement of biomass processing technology by—

(A) increasing the confidence and speed with which new technologies can be scaled up; and

(B) giving rise to processing innovations based on new knowledge;

(10) the added utility of biobased industrial products developed through improvements in processing technology would encourage the design of feedstocks that would meet future needs more effectively;

(11) the creation of value-added biobased industrial products would create new jobs in construction, manufacturing, and distribution, as well as new higher-valued exports of products and technology;

(12)(A) because of the relatively short-term time horizon characteristic of private sector investments, and because many benefits of biomass processing are in the national interest, it is appropriate for the Federal Government to provide precommercial investment in fundamental research and research-driven innovation in the biomass processing area; and

(B) such an investment would provide a valuable complement to ongoing and past governmental support in the biomass processing area; and

(13) several prominent studies, including studies by the President's Committee of Advisors on Science and Technology and the National Research Council—

(A) support the potential for large research-driven advances in technologies for production of biobased industrial products as well as associated benefits; and

(B) document the need for a focused, integrated, and innovation-driven research effort to provide the appropriate progress in a timely manner.

106th Congress

An Act

To provide for business development and trade promotion for Native Americans,
and for other purposes.

Nov. 7, 2000

[S. 2719]

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the “Native American Business Development, Trade Promotion, and Tourism Act of 2000”.

SEC. 2. FINDINGS; PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) clause 3 of section 8 of article I of the United States Constitution recognizes the special relationship between the United States and Indian tribes;

(2) beginning in 1970, with the inauguration by the Nixon Administration of the Indian self-determination era, each President has reaffirmed the special government-to-government relationship between Indian tribes and the United States;

(3) in 1994, President Clinton issued an Executive memorandum to the heads of departments and agencies that obligated all Federal departments and agencies, particularly those that have an impact on economic development, to evaluate the potential impacts of their actions on Indian tribes;

(4) consistent with the principles of inherent tribal sovereignty and the special relationship between Indian tribes and the United States, Indian tribes retain the right to enter into contracts and agreements to trade freely, and seek enforcement of treaty and trade rights;

(5) Congress has carried out the responsibility of the United States for the protection and preservation of Indian tribes and the resources of Indian tribes through the endorsement of treaties, and the enactment of other laws, including laws that provide for the exercise of administrative authorities;

(6) the United States has an obligation to guard and preserve the sovereignty of Indian tribes in order to foster strong tribal governments, Indian self-determination, and economic self-sufficiency among Indian tribes;

(7) the capacity of Indian tribes to build strong tribal governments and vigorous economies is hindered by the inability of Indian tribes to engage communities that surround Indian lands and outside investors in economic activities on Indian lands;

(8) despite the availability of abundant natural resources on Indian lands and a rich cultural legacy that accords great value to self-determination, self-reliance, and independence, Native Americans suffer higher rates of unemployment, poverty, poor health, substandard housing, and associated social ills than those of any other group in the United States;

(9) the United States has an obligation to assist Indian tribes with the creation of appropriate economic and political conditions with respect to Indian lands to—

(A) encourage investment from outside sources that do not originate with the tribes; and

PUBLIC LAW 106-464—NOV. 7, 2000

(B) facilitate economic ventures with outside entities that are not tribal entities;

(10) the economic success and material well-being of Native American communities depends on the combined efforts of the Federal Government, tribal governments, the private sector, and individuals;

(11) the lack of employment and entrepreneurial opportunities in the communities referred to in paragraph (7) has resulted in a multigenerational dependence on Federal assistance that is—

(A) insufficient to address the magnitude of needs;

and

(B) unreliable in availability; and

(12) the twin goals of economic self-sufficiency and political self-determination for Native Americans can best be served by making available to address the challenges faced by those groups—

(A) the resources of the private market;

(B) adequate capital; and

(C) technical expertise.

(b) PURPOSES.—The purposes of this Act are as follows:

(1) To revitalize economically and physically distressed Native American economies by—

(A) encouraging the formation of new businesses by eligible entities, and the expansion of existing businesses; and

(B) facilitating the movement of goods to and from Indian lands and the provision of services by Indians.

(2) To promote private investment in the economies of Indian tribes and to encourage the sustainable development of resources of Indian tribes and Indian-owned businesses.

(3) To promote the long-range sustained growth of the economies of Indian tribes.

(4) To raise incomes of Indians in order to reduce the number of Indians at poverty levels and provide the means for achieving a higher standard of living on Indian reservations.

(5) To encourage intertribal, regional, and international trade and business development in order to assist in increasing productivity and the standard of living of members of Indian tribes and improving the economic self-sufficiency of the governing bodies of Indian tribes.

(6) To promote economic self-sufficiency and political self-determination for Indian tribes and members of Indian tribes.

APPENDIX—H.R. 5408**SECTION 1. SHORT TITLE; FINDINGS.**

(a) **SHORT TITLE.**—This Act may be cited as the “Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) Representative Floyd D. Spence of South Carolina was elected to the House of Representatives in 1970, for service in the 92d Congress, after serving in the South Carolina legislature for 10 years, and he has been reelected to each subsequent Congress.

(2) Representative Spence came to Congress as a distinguished veteran of service in the Armed Forces of the United States.

(3) Upon graduation from college in 1952, Representative Spence was commissioned as an ensign in the United States Naval Reserve. After entering active duty, he served with distinction aboard the USS CARTER HALL and the USS LSM-397 during the Korean War and later served as commanding officer of a Naval Reserve Surface Division and as group commander of all Naval Reserve units in Columbia, South Carolina. Representative Spence retired from the Naval Reserve in 1988 in the grade of captain, after 41 years of dedicated service.

(4) Upon election to the House of Representatives, Representative Spence became a member of the Committee on Armed Services of that body. During 30 years of service on that committee (4 years of which were served while the committee was known as the Committee on National Security), Representative Spence’s contributions to the national defense and security of the United States have been profound and long lasting.

(5) Representative Spence served as chairman of that committee while known as the Committee on National Security during the 104th and 105th Congresses and serves as chairman of that committee for the 106th Congress. In addition, Representative Spence served as the ranking minority member of the Committee on Armed Services during the 103d Congress.

(6) Dozens of awards from active duty and reserve military, veterans service, military retiree, and industry organizations and associations have recognized the distinguished character of Representative Spence’s service to the Nation.

(7) Representative Spence has been a leading figure in the debate over many of the most critical military readiness, health care, recruiting, and retention issues currently confronting the Nation’s military. His concern for the men and women in uniform has been unwavering, and his accomplishments in promoting and gaining support for those issues that preserve the combat effectiveness, morale, and quality of life of the Nation’s military personnel have been unparalleled.

(8) During his tenure as chairman of the Committee on National Security and the Committee on Armed Services of the House of Representatives, Representative Spence has—

(A) led efforts to identify and reverse the effect that declining resources and rising commitments have had on military quality of life for service members and their families, on combat readiness, and on equipment modernization, with a direct result of those diligent efforts and of his

willingness to be an outspoken proponent for America's military being that Congress has added nearly \$50,000,000,000 to the President's defense budgets over the past 5 years;

(B) been a leading proponent of the need to expeditiously develop and field a national missile defense to protect American citizens and forward deployed military forces from growing ballistic missile threats;

(C) advocated reversing the growing disparity between actual military capability and the requirements associated with the National Military Strategy; and

(D) led efforts in Congress to reform Department of Defense acquisition and management headquarters and infrastructure and business practices.

(9) This Act is the 30th annual authorization bill for the Department of Defense for which Representative Spence has taken a major responsibility as a member of the Committee on Armed Services of the House of Representatives (including 4 years while that committee was known as the Committee on National Security).

(10) In light of the findings in the preceding paragraphs, it is altogether fitting and proper that this Act be named in honor of Representative Floyd D. Spence of South Carolina, as provided in subsection (a).
